

Blumbergs' Snapshot of the Manitoba Charity Sector 2023

By Mark Blumberg and Henri Pasha (November 1, 2025)

Blumbergs Professional Corporation recently reviewed the T3010 Registered Charity Information Return database for 2023 as part of the Sean Blumberg Transparency Project. The database covers about 4,682 Manitoba Charities of the approximately 86,000 registered charities in Canada that had filed their T3010 and were processed into CRA's Charity Listing database by February 2025.

This article provides a snapshot of the registered charity sector in Manitoba taken from a subset of the 2023 T3010 filings. We have completed Blumbergs' Snapshots of the Canadian Charity Sector for 2010 – 2022 as well. Keep in mind that these statistics only relate to registered charities under the Income Tax Act (Canada) and not to the 80,000 -100,000 non-profits across Canada which are not registered charities and for which CRA is not permitted to release information. The Canadian charity sector is a vital part of Canadian society and economy with revenue of over \$393 billion and expenditures of about \$354 billion.

The amount of easily accessible data on the registered charity sector is lacking. The T3010 form asks for very little information from charities. It is unfortunate but when you look at other countries such as the US and UK there is far more publicly available information on individual charities. In this world of greater expectation of transparency, the charity sector has fallen far behind and this could result in a reduction of public trust in charities. Here is my most recent submission to the Federal government calling for greater transparency with non-profits and charities.

	Manitoba 2023	Manitoba 2022	Ontario 2023	Canada 2023
Number of registered charities in Manitoba	4,682	4,595	30,426	83,536
Manitoba charities identified themselves as active	4,437	4,316	28,644	78,598
Manitoba charities identified themselves as inactive	155	75	1,295	3,429
Manitoba charities that made gifts to other charities or qualified donees	1,691	1,645	12,408	29,814
Total revenue for Manitoba charities	\$15 billion	\$13.8 billion	\$162 billion	\$393 billion
Total expenditures of Manitoba charities	\$14.2 billion	\$13.7 billion	\$136 billion	\$354 billion
Manitoba charities who funded projects outside of Canada	255	206	2,285	5,089
Amount spent by Manitoba charities outside of Canada	\$196 million	\$146 million	\$3.7 billion	\$5.3 billion
Manitoba charities received funds from Global Affairs Canada	4	4	76	139
Manitoba charities that had employment expenses	2,607	2,546	15,156	43,351
Manitoba charities that did not have any employment expenses	2,049	2,017	15,090	39,775
Amount spent by Manitoba charities on	\$8.2 billion	\$7.8 billion	\$76.3 billion	\$200 billion

salaries and other compensation				
Value of official donation receipts issued by Manitoba charities	\$825 million	\$774 million	\$12.6 billion	\$23.4 billion

The Canadian charity sector is a vital part of Canadian society and economy with revenue of over \$393 billion and expenditures of about \$354 billion. Please review the caveats at the end about the reliability and usage of T3010 information.

Please review the caveats at the end about the reliability and usage of T3010 information. The Sean Blumberg Transparency Project is in memory of my youngest brother Sean Blumberg. Sean was a sweet, kind person, a great brother who helped me on a number of occasions with many tasks including the time consuming and arduous task of reviewing T3010 databases and making them into something useful. As part of the Sean Blumberg Transparency Project, Blumbergs has been releasing information on the Canadian charity sector to provide a better understanding of the size, scope, complexity, and challenges of the sector.

In 2023, 83,540 of approximately 86,000 Canadian registered charities completed their T3010 returns. There were, however, 2 different T3010 returns from which a charity had to select depending on their year-end.

Charities with **fiscal periods ending on or after December 31, 2023**, filed their T3010 using T3010 Version 24. Approximately 48,418 charities have a December 31 year-end. [Fillable PDF \(t3010-fill24e.pdf\)](#). This version had quite a few extra questions that we discuss [here](#) and [here](#). This is the version in which we have displayed the data.

Charities with **fiscal periods ending on or before December 30, 2023**, filed their T3010 using Version 23. [Fillable PDF \(t3010-fill-23e.pdf\)](#)

When you look at the snapshot, realize that many of the charities did not need to complete those extra questions. Also, for the 2024 data that will be available next year, all charities will have to complete those questions. So, consider the information on the new questions to be preliminary and only completed by a subset of registered charities.

Some of the highlights of the Blumbergs' Snapshot of the Manitoba Charity Sector 2023 include:

- 4,682 Registered Charities in the Database Manitoba registered charities filed their T3010 out of approximately 86,000 charities in Canada
- \$15 billion in total revenue for Manitoba charities and total expenditures of \$14.2 billion.
- Government revenue totaled \$85 billion including from the federal government (\$590 million), provincial governments (\$9.4 billion) and municipal/regional governments (\$790 million). In total government is approximately 72% of revenue of the whole charity sector in Manitoba.
- 4,437 identified themselves as active and 155 as inactive
- 1,691 made gifts to other charities or qualified donees during their 2023 fiscal year
- Manitoba charities spent over \$197 million outside of Canada
- 4 Manitoba charities received funds from Global Affairs Canada
- 173 identified having contractual relationships with foreign intermediaries, 114 charities identified that employees conducted activities outside of Canada and 145 had volunteers conducting foreign activities.
- \$109 million was received by Manitoba charities from outside of Canada
- 2,607 identified having employment expenses while 2,049 did not have any employment expenses
- \$8.2 billion was spent by Manitoba charities on salaries and other compensation expenditures
- \$825 million in official donation receipts were issued by Manitoba registered charities

Limitations and Caveats

There are a number of cautions in dealing with the information from the T3010. You can access the CRA Charities Listing database directly on the CRA website at: www.canada.ca/en/revenue-agency/services/charities-giving/list-charities/list-charities-other-qualified-donees.html. As well, Blumbergs also maintains Canada's largest charity information portal at www.CharityData.ca with up to 20 years of information on every Canadian registered charity. The portal is free, and the aim is to increase transparency in the Canadian charity sector. With CRA removing over 10 years’ worth of information from the Charities Listing, www.CharityData.ca has far more years available. Currently, CRA is only providing 5 years of historical information on each charity.

- 1) The data in this note is based on the 2023 T3010 Registered Charity Information Return filings. Although all charities are supposed to file their T3010 within six months of their fiscal year end, some charities file late or do not file at all and then will lose their charitable status. Depending on the data set from CRA, not every charity may have filed their T3010 or been inputted yet.
- 2) Registered charities complete the T3010, and one person signs the form. The T3010 information is not independently verified by CRA when it is posted on the CRA site or placed in the CRA database.
- 3) Although an important legal document, the T3010 is often completed by volunteers or others who may have little understanding of the nuances of the *Income Tax Act* (Canada), limited language skills, may not have easy access to the correct information or are in a hurry to file the form to avoid deregistration. In the case of larger institutions, it is typically accountants or finance staff who prepare the T3010. One would expect greater accuracy with the larger institutions. However, as they also tend to be more complicated and involve bigger numbers, the likelihood of a significant inaccuracy in their T3010 filings is great.

- 4) The T3010s are filed with CRA and in many cases need to be coded by hand at CRA which can also introduce mistakes. Only a small number of T3010s have 2D bar code technology which can eliminate most processing errors on CRA's part. Canadian charities can, as of June 2019, electronically file the T3010 which does reduce errors and speed up the time that T3010 data is processed and available to the public. All charities should be filing their T3010's electronically using the [CRA MyBA system](#).
- 5) In some cases, those completing the T3010 for a charity are deliberately deceptive when completing the T3010. For example, an organization knows that it has substantial fundraising expenses but chooses to put them under charitable activities. Or an organization claims pharmaceuticals that it can purchase for \$50,000 are really worth \$50 million.
- 6) Don't rely on any of this information without checking with the charity and appropriate due diligence as required.
- 7) The T3010 is a tax form which is supposed to be completed according to guidance provided by the CRA in [Guide Completing the Registered Charity Information Return \(T-4033\)](#) and also various other CRA guidances and policies. The information inputted may not conform to Generally Accepted Accounting Principles (GAAP) and often the numbers will not match what is in a financial statement. You can obtain copies of financial statements, whether audited or not, on any registered charity by requesting the financial statements from CRA. These financial statements are filed with CRA but not placed on the CRA website and they can sometimes add further information. Charities are not required to post their financial statements on their website, but charities should put up at least the last 5 years financial statements to make it easier for donors and the public to access them.
- 8) Some questions on the T3010 are more prone to error than others. Some questions are complicated, while others are quite straightforward. Some matters are easily quantifiable, like value of official donation receipts, while others require allocation and other subjective measurements. Some questions, like revenue, are answered by almost every charity and if a charity makes a mistake, the likelihood is that such a mistake will not have much impact on the bigger picture. On the other hand, to take a historical example some numbers like political expenditures by Canadian charities are often incorrectly completed and even one or two charities by mistakenly inserting large numbers in this category can distort the picture. With the 2012 numbers, the top six organizations listing political expenditures appear to be all mistakes. This seems to have inflated the numbers by about 1000%. You can see my article ["Did the University of Windsor spend \\$285 million on political activities in 2012"](#). For 2013, the political numbers were \$171 million on the T3010. If one reviews the actual organizations, the number is probably about \$26 million. For 2017, the number is \$28 million. For 2018, the number is \$30 million. Unfortunately, today the CRA does not ask any questions about political activities of Canadian charities.
- 9) The T3010 asks certain questions. Many [important questions](#) are not asked on the T3010. Relying on the T3010 to make decisions on whether a charity is efficient or worthwhile to support is prone to failure. We have established a website at www.SmartGiving.ca which discusses in detail questions donors may want to ask before donating to charity.

This analysis was prepared as part of the Sean Blumberg Transparency Project.
